Our company Villalta Canmaking Machinery has an experience of more than 20 years in trading and overhauling can making machinery. During this time, our priority has always been to give complete satisfaction to our customers by ensuring the highest quality and reliability of our products.

Our company is located in the city of Madrid, capital of Spain, that is situated in the center of the country so it is a magnificent bridge location between different regions of the world such as Europe, Latin America, Africa and the Middle East.

As Partners of Soudronic Iberian Agent we've been experts for more than 20 years in rebuilding and setting up of Soudronic Welders installed in factories of Europe, America, Asia and Africa.
