RT LEAK-TESTERS

Square and rectangular cans

FOR RECTANGULAR AND SQUARE CANS
TYPE OF TEST: AIR PRESSURE

Product range	RT 6	RT 9	RT 12	RT 2016	RT 18	RT 21
can dimensions	up to 5 lt.	up to 5 lt.	up to 5 lt.	up to 18 lt.	up to 5 lt.	up to 5 lt.
can height	on request	on request	on request	on request	on request	on request
max output (cpm)	30*	45*	60*	60*	90*	105*
number of heads	6	9	12	16	18	21

* the real working speed depends on the can dimensions

level of work 1000 mm adjustable

height changeover automatic

MAIN FEATURES

These machines are provided for rectangular/square cans. The test is realized under pressure. The RT leak-testers are able to realize an excellent test utilizing a very low pressure. In this way it is possible to maintain the test performance without any deformation of the cans.

- Test under pressure (low pressure)
- Possibility to test cans with seamed top and filling hole.

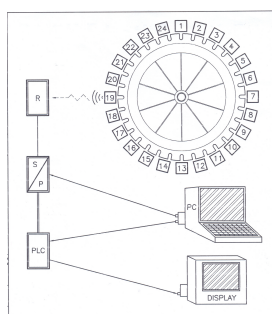

• QUICK HEIGHT CHANGEOVER!

IT IS NOT NECESSARY ANY MANUAL ADJUSTMENT TO REALIZE THE HEIGHT CHANGEOVER BECAUSE THE TESTING HEADS COME DOWN AUTOMATICALLY UP TO REACHING THE CANS' LID

• QUICK ADJUSTMENT OF THE TESTING HEADS IF THE POSITION OF THE FILLING HOLE CHANGES

THE INNOVATIVE MECHANICAL SYSTEM OF THE RT LEAK_TESTERS ALLOWS TO CHANGE THE POSITION OF THE TESTING HEADS EASILY! DIFFERENT FILLING HOLE SIZES AND POSITIONS DO NOT REPRESENT ANY PROBLEM!

SPECIAL MULTI TRANSDUCER SYSTEM

- One electronic transducer for each head
- More pressure values can be read during the test cycle
- It is possible to create a leakage curve in a way to analyze the situation during the test cycle
